Seventh International Conference on Advances in Signal Processing and Communication - SPC. The SPC 2018, is to bring together innovative academicians and industrial experts in the field of Signal Processing, Power Eelctronics, Communication Engineering, Digital Electronics, Electrical Power Engineering, Electrical Machines, Image Processing and etc to a common forum. The conference will be held at Jun 15-16, 2018; in Bengaluru, India to focus on the frontier topics in Digital Electronics, Electrical Power Engineering, Electrical Machines and Signal Processing. The SPC conference is jointly organised by the IDES and the Association of Computer Electrical Electronics and Communication Engineers (ACEECom).

All the accepted registered papers will be published by the Academica Press and the International Journal of Electrical, Electronics & Computer Science Engineering (IJEECSE), and will be submitted to possible indexing in all the major indexing services like EI, ISI Web of Science, DBLP, IET Inspec, Scopus and etc.

The SPC 2018, is an international conference where theory, practices, and applications of Signal Processing, Power Eelctronics, Communication Engineering, Digital Electronics, Electrical Power Engineering, Electrical Machines, Image Processing and related topics are presented and discussed. Original contributions are solicited on topics covered under the broad areas such as (but not limited to) listed below:

Active power quality controllers Aerospace applications **Automotive vehicles** Bearingless drive technologies Bio-medical power electronics Construction and protection Consumer power electronics **Control of Power Converters** Custom power devices Distributed generation Distribution networks **Electrical Machines and Actuators Electromagnetic Compatibility Electro-Mechanical Energy Conversion EMC** standardization Hybrid energy systems

Mechatronic Systems Micro-electromechanical systems (MEMS) Analog ad Digital devices and Services Military Technology Modeling and simulation

Renewable Energy Sources Renewable energy Technologies **Communication Systems** Switch-mode power supplies and UPS Telecommunications power supplies Test, measurement and instrumentation Unconventional motors and generators Semiconductor Technology Variable and constant speed generators Wind, Solar and Renewable Energy **Electronic Materials Intelligent Systems and Approach Information Technology Application Control Theory and Application Knowledge Management Data Communication Embedded System Digital Signal Processing** Microprocessor based Technologies

Prospective authors are invited to submit full (original) research papers (which submitted/published/under consideration anywhere conferences/journals) in electronic (Doc or Docx) format through the CMT Conference Management System or via email spc.chair@gmail.com
